

# Little Green Thumbs visit...

Today I learnt about gardening with my friend Little Green Thumbs.

Things I remember are...

1. In the sun I need to wear my \_\_\_\_\_
2. To keep my hands safe I wear \_\_\_\_\_
3. To keep my feet safe I wear \_\_\_\_\_
4. To grow my plant it needs \_\_\_\_\_ and \_\_\_\_\_

**Here is a picture of my favourite plant...**

**Some of the plants I saw today...**

## **Cactus.**

Cactus is a plant which has a lot of spikes. It grows well in places that are dry and can store water in its body to survive. They come in different shapes and sizes and can grow really tall.

## **Wollemi Pine.**

This is one of the oldest trees in Australia. It's species is over 200 million years old. It was thought to be extinct but was rediscovered in the Blue Mountains in 1994. The Wollemi Pine can grow up to 40 meters tall.

## **Vegetable Garden.**

The best thing about a vegetable garden is everything in it can be eaten. Vegetables have many vitamins and minerals that help us to be strong and healthy. They all taste and look different and can grow above or below the soil.
